07459185711

I am a 41-year-old final-year Computer Science student, due to graduate in June, with hands-on experience in building full-stack web applications using modern technologies such as Next.js, TypeScript, and database systems. I have also worked on machine learning applications, including image classification using Python and ML libraries.

I am driven by a deep passion for continuous learning, tackling complex challenges, and applying my knowledge in real-world scenarios. My core philosophy is: "Learn concepts to develop technical skills, and use technical skills to refine the concept."

I am now seeking opportunities where I can grow, contribute meaningfully, and further sharpen my technical expertise.

Work Experience

1. Full-Stack Web Application (Movie Recommendation System)

Education

BSc (Hons) in Computer Science
University of Roehampton United Kingdom - London, Greater London
June 2021 to Present

Skills

- Machine Learning: Python (Pandas, NumPy, scikit-learn, TensorFlow), Image Classification
- Database: MySQL, PostgreSQL, MongoDB, Firebase
- Soft Skills: Problem-solving, Adaptability, Self-learning, Team collaboration
- - Frontend: Next.js, React.js, TypeScript, HTML5, CSS3, TailwindCSS
- Backend: Node.js, Express.js, REST APIs
- Tools & Others: Git, GitHub, Vercel, Docker (basic), Linux CLI
